

Versailles Castle

Description

Versailles Castle is one of the most famous and historic buildings in France. Officially known as the Royal Palace, it has been the royal residence of French monarchs for a little over 100 years. The Palace of Versailles was originally ordered by Louis XIII for his hunting retreat. When the construction began in 1631 it was a modest castle, it was only when Louis XIV was made king that Versailles was transformed into the luxurious palace we know today.
